

Dear company representative,

My name is Sarah Lucia Barrett and I'm the treasurer of the Caltech Latino Association of Students in Engineering and Sciences (CLASES). We would like to thank you for your interest towards helping us foster the next generation of Hispanic scientists and professional engineers. CLASES serves the undergraduate Hispanic and Latinx students of Caltech. We provide professional and cultural support to these students. Through our partnership with Club Latino, the graduate student-serving organization at Caltech, we also provide access to outreach events. We support students in nearby K-12 schools through STEM demonstrations, serving on panels, and other events.

We'd like to expand in the following years by offering more professional opportunities and sharing Hispanic culture with the Caltech community at large. This past year, we sent five students to the Society of Hispanic Professional Engineers conference, and of the five students, four received internship offers. Every year, we throw an event known as Semana Latina, where we host speakers, share Hispanic food, and host social events for all of Caltech. We would love to expand on these events and offer more support to students. To achieve this goal of expansion, we would appreciate your help and support.

All of us at CLASES thank you for your time spent in reading this proposal and your interest in helping us fulfill our mission. We hope to have your sponsorship support for the 2019-20 academic school year. If you have any questions, feel free to reach out to me. I will also happily provide more information.

We hope to hear from you soon,

Sarah L. Barrett
